Examination

Final written paper

Structure

2 blocks of 4 days each

Executive Education

+49 69 154008-9302

➔ seminare@fs.de

What to expect

The course is suitable for business developers who need an in-depth understanding of blockchain technology and cryptocurrencies. The course delivers an insight into the Ethereum and Hyperledger platforms among others; you will develop your understanding of the full range of potential blockchain use cases and business models. As more and more blockchainbased applications evolve, an in-depth knowledge of the underlying technologies is becoming indispensable. Equipped with this knowledge, you can leverage blockchain opportunities to build your company's digital future.

Method

The course consists of two 4-day weeks. You may also choose not to take part in the full certification course and attend the first week only (modules 1-4). In this case, you will not be required to write a paper; instead, you will receive a certificate of attendance.

Ideal for

Innovation managers, CIOs and CDOs, IT strategists, executive managers and experts in business administration, as well as individuals who would like to learn more about blockchain technology.

Requirements

No coding experience required!

In-house programmes

All our specialist courses are also available as customised programmes. Please ask us for a quotation.
