Final written paper

## Structure

2 blocks of 4 days each

## Executive Education

+49 69 154008-9302

➔ [seminare@fs.de](mailto:seminare@fs.de)

## What to expect

The course is suitable for business developers who need an in-depth understanding of blockchain technology and cryptocurrencies. The course delivers an insight into the Ethereum and Hyperledger platforms among others; you will develop your understanding of the full range of potential blockchain use cases and business models. As more and more blockchainbased applications evolve, an in-depth knowledge of the underlying technologies is becoming indispensable. Equipped with this knowledge, you can leverage blockchain opportunities to build your company's digital future.

## Method

The course consists of two 4-day weeks. You may also choose not to take part in the full certification course and attend the first week only (modules 1-4). In this case, you will not be required to write a paper; instead, you will receive a certificate of attendance.

## Ideal for

Innovation managers, CIOs and CDOs, IT strategists, executive managers and experts in business administration, as well as individuals who would like to learn more about blockchain technology.

## Requirements

No coding experience required!

## In-house programmes

All our specialist courses are also available as customised programmes. Please ask us for a quotation.

## Further details and registration
