- Core modules
- Electives
- Thesis
- Capstone & Thesis defense

- Opening week
- Module abroad
at SDA Bocconi School of Management in Milan, Italy

Graduation takes place in November 2022

GENERAL CURRICULUM OVERVIEW

Curriculum overview

The Full-time MBA curriculum (60 ECTS) is composed of a 12-month accelerated learning experience. Divided into core module lectures, electives and a thesis period. The programme includes a module abroad to Milan, Italy at the SDA Bocconi School of Management and the option to choose from 15 different electives (from three possible tracks: Finance, Management or Technology). Core module courses take place Monday – Thursday, from about 9am – 5:30pm CET. Friday's are dedicated for Career Service workshops (specific times vary).

Leadership camp & Opening week

The programme starts with an opening ceremony followed by a leadership camp at the Lufthansa Conference Centre in Germany. During this activity-packed weekend, students develop many of the key skills they will employ throughout the programme, including teamwork, communication, and time management. Following an exciting one-week opening on campus. Join a series of workshops, guest talks, and networking sessions to connect with staff & peers across the MBA community.

Core modules

The curriculum is comprised of 13 core module courses, while touching base on all areas of general management. This includes but is not limited to, New Technological Business Trends, Marketing, Financial Management, Organisational Behaviour, and Operations Management. Our curriculum prepares students to become strong business leaders with knowledge and understanding of general management and business acumen, analytical and critical thinking, effective communication, and inspirational and ethical leadership skills.

Electives

While you obtain a general MBA degree from Frankfurt School, our diverse elective courses offer students the opportunity to fine-tune their skills across different sectors in business. Students can choose from 15 different electives and 3 different tracks including Finance, Management, and Technology.

Module abroad

As part of the MBA experience, students complete a one-week module abroad, Leadership of Innovation & Change, at SDA Bocconi School of Management in Milan, Italy. The engaging learning environment at one of Europe's top leading business schools makes the experience particularly interesting and rewarding on many different levels. This module abroad typically takes place in the spring.

Skill courses (optional)

The programme offers a combination of complementary approaches to develop transferable management skills (e.g. leadership and negotiation) and enhance the personal development of students. The interactive teaching and learning methodology employed in these modules has proven particularly beneficial for candidates. Participation is optional but strongly recommended.

Thesis options

Our thesis options provide students with flexibility and opportunities for further professional development, while enhancing their problem solving and management skills. Students have the chance to work on a Group Consultancy project for a company that helps to solve current business challenges. A second option is an Entrepreneurial Business Plan, a comprehensive report for the launch of a start-up. Finally, students can conduct their own independent research.

Capstone

At the end of the programme, students participate in a Simulation Game: SIGMA Challenge, a fully computerised business simulation that wraps-up the MBA study programme. Students compete in an international environment while taking a deeper look into strategy, finance, marketing, operations and cross-cultural team dynamics.
