Online Training

Risk Management

Course Description
Risk management plays a key role in times of uncertainty and volatility. Organizations with well-developed risk management frameworks can respond and even seize opportunities in times of crisis. This webinar will discuss Risk management during the time of COVID-19 and financial crisis.

Course Contents
- The Global COVID-19 Recession: The Sky is Falling.
- Tracking COVID-19's Impact across geographies, sectors, business models, income levels and social strata etc.
- Initial evidence of post-moratorium borrower payment performance across the MENA region and globally.
- MSMEs are usually diversified and resilient in crisis, but the COVID-19 impacts are uneven and unfair – we need data-driven micro-segmentation to identify viable lending opportunities.
- The night is darkest before dawn: This crisis is far from over. Corporate defaults are always a lagging indicator. It’s time for some portfolio stress testing.

Methodology
The training approach will be a combination of trainee centric teaching and active (participatory) learning.
